

Far From Home

<https://threejs-journey.com/#>

This is inspiration for the game progression based on kenny nl assets

Level 0:

Menu and story

Player press start button this isometric cube will rotate anticlockwise and start fading out and next isometric cube start to fade in like a smooth transition to next level

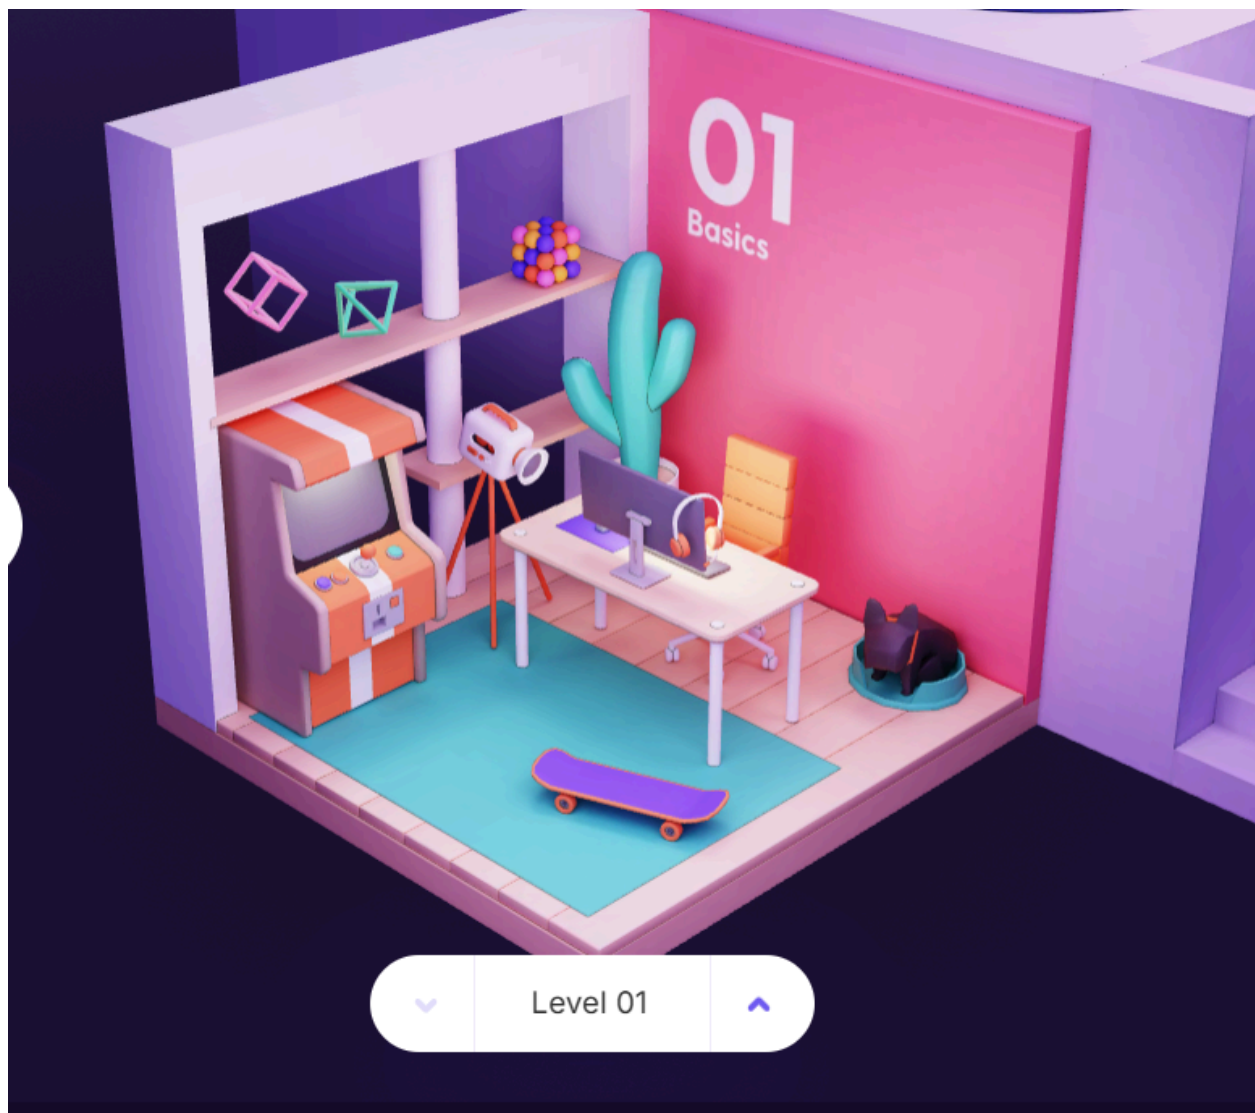

Level 1:

Lets say in a dark store we get a popup just like the menu for the words we will use in this level. There is one person who greets you formally and you greet formally as well. and asks you to collect 2 apples, 1 banana, 2 milk etc and we collect it by clicking on them in the store. If possible we will pronounce those if whisper works

For shelf and other assets

Levels will look like this

Level 2:

you are in the restaurant like a food delivery boy and then you ask for 2 pizza margarita, 2 wine, 2 cola 1 ice something like that

Level 3 :

You are at someone's door. They greet you formally, you greet back formally and you deliver food and they give you tips.

Level 4: you earned money and now you want to go to a furniture store to buy some furniture for you but it was too expensive you end up coming back home sadly but there will be conversation and words.
